

Art III Visual Journals

4th Six Weeks

Visual journaling is similar to a sketchbook, but with more freedom to be creative!! It is a place you can draw, write, take notes, record ideas, doodle, etc. The purpose of a visual journal is to get you to explore, experiment with new mediums, and to become more creative. It also teaches you to be less afraid of messing up that nice clean white paper. If you don't like it—cover it up and improvise. You can glue pages together, cut windows through pages, glue magazine clips and draw on top of them. Keep your journal with you wherever you go, because you could be inspired by something you see. This will be fun and will help make you a better, more creative artist!!!!

Assignment:

1. Insect: Choose an insect and do several drawing studies of it on a page.

Mediums: watercolor, pen and ink, and collaged paper. (use all mediums)

2. Song: Write your favorite lyric from a song. Repeat it over and over, on the entire page and illustrate it. Use the following mediums .

Mediums: pen/ink, ebony, pastel (use all three)

Due: Monday, February 12, 2018 (Ten points per class period late)

Grading: Each category is worth 10 points on each assignment. Total 50 pts. for each assignment.

1. Media: Was the correct media used?

2. Objective: How successful was the objective?

3. Creativity: Did you think outside the box?
4. Presentation: Did it look like it was well thought out and took time?
5. Skill: Was the finished product well executed and show good art skills.
